COVID-19-related deaths

No deaths were reported to ACT Health during this reporting period.

There have been four COVID-19 related deaths in 2024, bringing the total number of COVID-19-related deaths for the pandemic to 296.

Figure 1: COVID-19 cases since 4 February 2023 (with 7-day rolling mean) by test type and diagnosis date^{ab}

Notes:

^a*From 22 December 2023, ACT Health has stopped collecting self-reported positive Rapid Antigen Tests (RATs).

^bThe DIAGNOSIS DATE will be the TRUE ONSET DATE if known, otherwise it will be earliest of the SPECIMEN DATE, the NOTIFICATION DATE or the NOTIFICATION RECEIVED DATE.

^cDue to the case processing system, there is a small proportion of cases that will not appear before the end of the cut-off period. This will result in an under-reporting of the case numbers and average mean for the 48 hours prior to the cut-off period.
