 - a. Persons who were at a casual contact location less than 4 days ago will need to undergo two tests. The person is to undergo the first test upon learning that they are a casual contact. The person must undergo a second test on day 5 after the person was at the casual contact location. The person must remain in quarantine for the whole time, which only concludes once the person receives a negative test result from the **second test**.
 - b. Persons who were at a casual contact location 4 or more days ago will only need to undergo one test, to be conducted as soon as possible upon learning that they are a casual contact. The person must remain in quarantine until the person receives a negative test result.
3. Quarantine at your place of residence or other suitable accommodation until informed of a negative test result.

Continue to monitor for symptoms for 14 days from the date last in a listed exposure location, and if you experience any symptoms of COVID-19 go to a COVID clinic to be retested.

Note: Points 2 and 3 continue to apply regardless of whether a negative test result was obtained in another jurisdiction.

Irrespective of tests conducted under Point 2, persons who are Casual Contacts should get tested again for COVID-19 if the person experiences any symptoms of COVID-19, no matter how mild.

The following conditions apply to all Places outlined in the table below.

For all travellers:

1. Complete a self-declaration form within 24 hours prior to arriving in the ACT, or within 24 hours from the commencement of a COVID-19 area of concern notice.
2. Undergo appropriate testing for COVID-19, regardless of whether symptoms are present, as advised by an **authorised person** within ACT Health.
 - a. Persons who were at a casual contact location less than 4 days ago will need to undergo two tests. The person is to undergo the first test upon learning that they are a casual contact. The person must undergo a second test on day 5 after the person was at the casual contact location. The person must remain in quarantine for the whole time, which only concludes once the person receives a negative test result from the **second test**.
 - b. Persons who were at a casual contact location 4 or more days ago will only need to undergo one test, to be conducted as soon as possible upon learning that they are a casual contact. The person must remain in quarantine until the person receives a negative test result.
3. Quarantine at your place of residence or other suitable accommodation until informed of a negative test result.

Continue to monitor for symptoms for 14 days from the date last in a listed exposure location, and if you experience any symptoms of COVID-19 go to a COVID clinic to be retested.

Note: Points 2 and 3 continue to apply regardless of whether a negative test result was obtained in another jurisdiction.

Irrespective of tests conducted under Point 2, persons who are Casual Contacts should get tested again for COVID-19 if the person experiences any symptoms of COVID-19, no matter how mild.
